WORK EXPERIENCE

Freelance UX Designer | SETH MILOT *April 2024 - March 2025*

- Led the UX design of the BenBlox iOS application from concept to completion, incorporating glassmorphism, minimal layout, and dark mode.
- Conducted user research and usability testing to identify usability issues and enhance the overall product experience.
- Refined on UI interface based on user feedback and testing to create a more intuitive application experience.

Frontend Developer | Experts Coder *March 2024 – August 2024*

- Expanded React-based frontend features for a client-facing platform, improving user retention and session duration.
- Collaborated with and guided a team of four developers, resolving technical challenges and supporting timely project delivery.
- Optimized rendering and asset management, reducing page load times and supporting SEO performance.

Web Developer | Prachar Expert *Nov 2023 – March 2024*

- Built React-based web applications across healthcare, aviation, and real estate domains, contributing to improved booking conversion rates.
- Streamlined frontend performance, reducing page load times by 10% and increasing overall site efficiency.
- Refactored frontend code to improve maintainability, scalability, and SEO performance.

WordPress Developer | Garmin Express Updater *Feb 2023 – May 2023*

- Built and optimized a WordPress website using Elementor, enhancing content organization and UI presentation.
- Delivered a responsive website while meeting project requirements and timelines.

PROJECTS

ARCBOT – SaaS Platform for Dynamic Pricing & Monetization *Nov 2024 - Feb 2025*

- Engineered a scalable SaaS platform using **Zod and Drizzle ORM**, supporting real-time pricing workflows across 50+ countries
- Implemented **merchant analytics dashboards** with real-time sales monitoring, campaign management, and REST APIs.
- Created reusable UI components using Tailwind CSS and shadcn/ui to maintain consistency across the platform.

Benblox App *Dec 2025 - Feb 2026*

- Designed a mobile app experience using glassmorphism, minimal UI, and dark mode principles.
- Mapped user flows for price comparison, personalized profiles, and payment splitting.

EDUCATION

IGNOU University—Mohyal Educational & Research Institute of Technology

Bachelor of Computer Applications - BCA *December 2022 - June 2026*
